

I subscribe to XM Radio because I am fed up of listening to 5 minutes of news, or traffic, or music and 20 minutes of commercials. There is adult content comedy which I pay for, not controlled by a bureaucratic censor. The ultimate control should be my 1st amendment right to turn it on or turn it off. That is what this Memorial Day weekend is about. Not who can pay the most to the lobbyists. Reject the NAB's petition 04-160.
